

WHAT WE DO

We provide the public with an affordable and convenient portal of entry to wellness through routine chiropractic care often resulting in better function, improved joint motion, and a healthier, more active lifestyle.

We accomplish our goal through the gentle application of a targeted movement where and when indicated by licensed doctors of chiropractic to improve motion of the body's spinal column and extremities.

This is commonly referred to as an adjustment or manual manipulation.

WHAT WE DON'T DO / LIMITATION OF SERVICES

We do not offer to treat any disease or condition other than joint dysfunctions associated with the spine and extremities.

We do not accept or bill insurance, Medicare, and/or any third party carrier for payment.

We do not have extensive diagnostic or on-site x-ray equipment, provide invasive testing/treatment or administer physio therapies such as laser, electrical muscle stimulation or ultrasound.

Our services are limited to the reparative/preventative effects of routine care by improving joint mobility and function in the spine and extremities.

In the doctor's professional opinion, should any of our patients need x-rays, additional diagnostic testing, or other forms of health care services, they will be referred to an appropriate provider or facility, when indicated.

Dr. Lewis reserves the right to defer any patients care to another physician based on circumstances.
